Summary

B.Tech CS graduate (KIIT, 2026) with proven experience in data management, backend systems, and end-to-end project delivery. Currently managing B2B data pipelines at Go Marg.

Education

KIIT <i>Bachelor of Technology in Computer Science (B.Tech), CGPA: 6.99</i>	2022 – 2026 Bhubaneswar, Odisha
Higher Secondary Education: <i>St. Paul, (MSBSHSE), Scored: 74%</i>	2020 – 2022 Nagpur, Maharashtra
Secondary Education: <i>Mont Fort Secondary High School (CBSE), Scored: 77.2%</i>	2018 – 2020 Ballarpur, Maharashtra

Experience

Coal India Limited (WCL) <i>Intern</i>	Nagpur, Maharashtra May 2025 – June 2025
- Designed and implemented a Flask + MySQL web app for visitor registration, access control, enabling data-driven access decisions. - Integrated role-based authentication and session management to protect sensitive visitor data. - Demonstrated a fully digital visitor check-in system to WCL headquarters, replacing manual paper-based workflows.	
Sprouts.ai <i>SDR</i>	Bengaluru, Karnataka Feb 2026 – May 2026
- Managed structured B2B prospect data across Salesforce CRM and internal platforms. - Mapped targeting criteria to data workflows for pipeline reporting - Qualified B2B prospects by researching company profiles and market fit	
Go Marg <i>GTM Engineer</i>	Remote May 2026 – Present
- Built structured B2B lead pipelines using Apollo.io with data hygiene — deduplication, enrichment, segmentation - Mapped targeting criteria to data workflows for pipeline reporting.	

Projects

Password Analyzer	souravi12/Password Analyzer 🔗
Flask app to evaluate password strength across 5 categories using rule-based scoring.	
Encryption	Encryption 🔗
Flask app for text encryption via AES, DES, and RSA with real-time output	
Port Scanner	souravi12/Port Scanner 🔗
- Built a web-based UI to display scan results for user-defined port ranges on any target host. - Applied data extraction and enumeration logic to identify and structure network-level information.	

Technical Skills

Languages: Python, Java, SQL, HTML, CSS, JavaScript
Frameworks & Tools: Flask, Git, MySQL, VS Code, Apollo.io, Salesforce, Excel
